Possession to Advance – Playing out of the Back

Why Play Out of the Back?

Individual Development

- Requires higher level of technical ability.
- Requires players to be more conscious of teammates in possession and their role in relation – spatial awareness and movement.
- Requires players to think their way through the game with a higher level of tactical awareness.
- Asks players to be more constantly involved in the play, whether on the ball or in the near vicinity.
- Allows players of less physical size, strength, power etc to be as valuable and effective in the game in the shorter term – don't forget that these players in the long term may be the most important ones!

Team Development

- Allows a more controlled style of play.
- Allows a more controlled physical output from players.
- Allows more players to be around the ball by moving progressively up the field, less chasing to catch up to play.
- Allows players the necessary time to move into intelligent positions in order to receive the ball or create space for a teammate.
- Allows a more thoughtful and calculated way of attacking the opponent in order to choose the best opportunity to attack the goal.

At higher levels players will be asked to play this way – prepares them most effectively.

When?

When goalkeeper or a player wins possession of the ball in the defensive 3rd (including goalkicks)

Where?

Defensive to midfield 3rd

What?

Making best decisions to progressively build possession from goalkeeper to target player and goal.

How?

Split center backs, drop in center mid between them, push outside backs/wingers high and wide.

Educating Your Parents

- Share with them the Club's playing style components – Fast paced possession with purpose and progress, technically quick players, mobility, speed of thought, synchronized technique and movement
- Emphasis on long-term player development – what we do today is designed to help their child achieve the highest level of play associated with their potential and desire
- Understanding and acceptance of potential short-term negative outcomes
- Importance of patience related to this approach/playing style

9v9 Playing out of the Back Shape

DESCRIPTION/ORGANIZATION:

Recommended team shape for playing out of the back - 9v9

COACHING POINTS:

strong/ball side outside back pushes up field to clear space for center back

3 player options for short pass (center back, one outside back and #6) - 2 near sideline at edge & 1 inside D at top of the penalty box

4 long passing options on strong/ball side posted up

Goalkeeper takes all goal kicks

When the ball goes over the endline for a goal kick or the GK gets possession, the GK grabs the ball as quickly as possible, sets the ball quickly if a goal kick, and reads defenders to determine best options:

Play short when at least one of the 3 short passing options is open

Play long to the 4 players up the field on that half if all 3 short options are marked

3v3+1 to Targets

DESCRIPTION/ORGANIZATION:

3v3+1 to Targets (4/5/6 and 8-10 as neutral), 20-25 yards wide, 30-35 yards long

Neutral represents #8 or #10, Targets represent #1/#9 depending on direction of ball

Attacking players may go wide of field of play to receive ball - undefended until ball played there

Ball played to target must pass through field of play

Variation: Play 4v4+1 (4/2/3/6 with 8-10 as neutral)

Variation: Increase width of the field and require all players to stay within field

COACHING POINTS:

*Coach both teams

*Use width to build possession out of the back/open up passing lanes to target

*Open body shape at all times to be able to see ball and target you score to

*Receive ball across body and faced up whenever possible

*Play a forward/penetrating pass whenever it is on

*Support underneath the ball and play the way you face whenever facing away from goal with pressure

*Be patient- don't force ball forward when well defended, play backwards and change area of attack
