

Player Feedback / Evaluations

Provide individual player feedback throughout the season

- We don't want them to be surprised at any point regarding how you view their performance/play.
- Make notes on individuals after training/during games throughout the season
- Pull aside individual players after training/games to provide a couple of key thoughts
- Focus on delivering this feedback in a way that is honest but at the same time positive and focused on pathways to success. Consider the sandwich method.

Player Feedback / Evaluations

- Formal evaluations should be provided to each player/family once per year for U12+ (optional for younger). Templates available on the Club website:**
 - U9-U12 Player Evaluation Form
 - U13+ Player Evaluation Form
 - U13+ Player Survey

- Formal player evaluations should consist of:**
 - Some type of written feedback
 - In-person meeting to discuss with player and parents
 - Agreed upon action items and/or goals

Player Feedback / Evaluations

Formal Evaluation Approach 1

- Send completed player evaluation form to player and parents one week prior to in-person meeting
- Start by asking them what they thought about the evaluation and what questions they have
- Highlight the key things you think are important to get across.
- For U9-U12 players, provide them with action items.
- For U13+ players, ask them to provide you with action items/goals based on your feedback and get them to you within a week.
- Follow-up with the players regarding those action items to provide any thoughts you have on them.

Player Feedback / Evaluations

Formal Evaluation Approach 2

- Send the evaluation form template to the player to complete from their perspective and send to you prior to the in-person meeting.
- Send your completed evaluation form to them immediately after receiving theirs.
- Follow a similar path as described in Approach 1 but also compare and contrast the differences in the player and coach perspectives.
- Use the same strategy as described in Approach 1 related to the development of action items/goals.

Player Feedback / Evaluations

Formal Evaluation Approach 3 for U13+

- Follow similar strategies as described in Approach 1
- But have the initial evaluation discussion with the player only (parents not within earshot but within visual to follow player safety guidelines).
- Then bring the parents over and have the player summarize for the parents what you discussed.
- This provides you the opportunity to get an immediate awareness of what the player 'heard' and took away from your discussion. Provides you the chance to immediately address misperceptions.

Player Feedback / Evaluations

Formal Evaluation Approach 4 for U13+

- Think about and write down strengths/areas of improvement for the player and at least one important goal you want them to have prior to in-person meeting.
- Have player complete the U13+ Player Survey template and bring it to the meeting.
- Review the player survey during the in-person meeting with an emphasis on the player discussing their views and steering them to think about key areas you have identified.
- Discuss/create multiple short-term goals and one long-term goal.
